

# About Us

R-Kidz Early Childhood Education Center Inc.

## Listening and Reading:

We want your child to have a passion for reading. Because reading is foundational to all learning activities, it is imperative that foundational skills be built. Listening is one of those skills. Another is recanting what you have heard. Activities that will help them learn the sounds, as well as the names of the letters will give them greater success in reading. Our literacy center provides the children with the opportunity to develop reading and pre-reading skills.
