

# About Us

R-Kidz Early Childhood Education Center Inc.

## What to Expect:

We will communicate with our families so that we are all on the same page. This will be done through written communication, both posted in the room, on the parent board and through notices, to help you see what skills are being worked on daily. On our Web Site you are able to view menus, field trip notices, special events.

The Children's work will be displayed in the classroom and halls for you to see. There will also be special events such as the Science and Art Extravaganza for you to be up close and personal with their work. We will have their art work displayed in print and as many ways as possible so that you may have a record for years to come of the precious early education years. The early education years are important building blocks for future success.
